WHERE HOME BEGINS AGAIN

Transforming the daily lives of people in need.

OUR PROMISE

What you can always count on

We're Honest

Our connections and methods are built on trust.

We're Helpful

We are easy to work with, our products are simple and easy to use, we help others achieve more.

We Hustle

We hustle to provide better results, faster. We are resourceful and creative in finding new methods of improvement and achievement.

Distribution

With dealers and service agents in almost every town and city in Australia and New Zealand, and in most states across the USA, we are delivering solutions to homes and facilities every day. Our distribution centers in Melbourne, Auckland, and Nebraska allow us to quickly supply anywhere in Australasia and North America.

Product & Supply

We design and manufacture our products to close the dignity gap — bringing clinical performance home with comfort, independence, and peace of mind. Trusted components and local stock ensure the right support is delivered quickly when it's needed.

01 BEDS & PARTNER BEDS

Homecare beds that feel like home.

Designed with both comfort and dignity in mind, our homecare beds offer more than just medical support — they bring a sense of familiarity and warmth to any living space. Whether for individual use or as a partner bed solution, our range combines high functionality with discreet, homelike aesthetics. Because care should feel personal — not clinical.

- Backlit wipeable Hand Piece
- Strong Breathable Mattress Platform

Tall Person Support

Comfortably suits users up to 85" in. Knee break lifts heels off fixed bed extension, easing pressure.

Heavy-Duty Castors

Featuring 8 robust castors for excellent weight distribution, with 4 lockable for secure stability.

Ultra-Low Bedframe

Extra low Bedframe designed to reduce falls risk and enhance peace of mind.

Sleep Together, Your Way.

All Icare Homecare Beds can be customized for couples to sleep side by side—seamlessly, with no gap between mattresses.

Just follow three simple steps:

- 1 Pick the perfect model for each partner
- 2 Choose your preferred size for each side (Twin XL or Full XL)
- 3 Select who sleeps on which side – using our Partner Bed Assessment Form

Note: Headboards are sold separately and are tailored to each side.

Product Highlights:

- Mix and match bed models
- Left or right side sleeping preferences
- Compatible with side rails and accessories
- Can be made with Wheelchair transfer cut away

PARTNER BED SET-UP

Individual Headboards

Each bed has its own headboard – perfect for separate use or paired setups.

No Mattress Gap

No gap between the mattresses. A flush surface for uninterrupted comfort and connection.

Recessed Center Rail

A recessed center rail creates a smooth, upholstered link between both beds for a clean and unified feel.

Side-by-Side

Beds placed next to each other for a seamless partner setup. Side by side configurations.

HEADBOARDS & FOOTBOARDS

Standard

A timeless, simple headboard that complements any bedroom décor.

Height: HB 28" in FB 20" in

Model Code: HB333 | FB333

Lyon

A sleek and contemporary design with clean vertical upholstered panels.

Height: HB 28" in FB 20" in

Model Code: HBL | FBL

Karlstead

A modern design with horizontal upholstered panels and blind finishing.

Height: HB 33" in FB 24" in

Model Code: HB7K | FB7K

Designed for Comfort, Built for Style

Our padded, upholstered headboards combine functionality with aesthetic appeal, enhancing comfort and room ambiance.

They help prevent pillows from sliding off the bed and protect users from sliding during Trendelenburg positions.

With sleek designs to suit any style and matching footboards available for a cohesive look, all pieces are durable, easy to clean, and simple to install—completing a bed setup that goes beyond style.

Adding a headboard or footboard will increase the overall bed length by approximately 1" in–2" in each, depending on the model.

A Seamless Fit for Every Bed.

Available in a variety of designs, our headboards and footboards are built to align with all Icare Homecare bed sizes. Each piece is measured for a precise fit, ensuring stability and seamless installation. Use this chart to quickly find the right headboard for your bed size and model.

BED

FUNCTIONS

Head Lift Down

Fully flat head lift position.

Head Lift Up

Raises upper body – aids sitting, breathing, transfers, and comfort.

Head Lift

Knee Break Down

Fully flat knee break position.

Knee Break Up

Bends knees – eases back pressure, supports circulation, and helps prevent sliding.

Knee Break

High

Raises the bed – sets the right height for safer transfers, reduces caregiver strain, and makes care tasks easier.

Low

Lowers the bed close to the floor – improves comfort at rest and helps prevent falls.

Height Adjustable

Trendelenburg

Head down, feet up – boosts circulation, reduces leg swelling, aids pressure care.

Reverse Trendelenburg

Head up, feet down – eases breathing, aids transfers, aids pressure care.

Trendelenburg and Reverse

Designed for Comfort, Built for Living.

Beyond function, Icare beds look great in any setting. With clean lines, stylish headboards and footboards, and a choice of finishes that bring warmth and dignity while delivering full care capability. They combine smart functionality with modern design, making them versatile for homecare, rehab, and long-term care. This chart gives an overview of all adjustable functions, showing what each does and how it supports comfort, safety, circulation, transfers, and caregiver ease.

SAFETY FEATURES

BATTERY BACKUP

Reliable Backup Power

- **Up to 1 Week:** Backup power when it's needed most.
- **Reliable:** Activates instantly with consistent performance.
- **Cost-Effective:** Lasts for years with minimal use.

WHEELCHAIR TRANSFER CUTAWAY

Cutaway Design

- **Optimal Alignment:** Brings wheelchair closer for easier transfers.
- **Accessible:** Clear space for natural approach.
- **Independent:** Less effort, more user control.

ANTI CRUSH MOTORS

Every Move Protected

- **Safe:** Limbs won't be crushed during adjustment.
- **Smooth:** Provides controlled, gentle bed movement.
- **Reliable:** Built to operate consistently for long-term use.

RETAINER BARS

Held In Place

- **Secure:** Holds the mattress firmly at corners and foot.
- **Stable:** Prevents shifting during transfers.
- **Easy to Install:** Fits quickly and simply without tools.

Safety First – Always Standard.

At Icare, safety is never optional. Every bed we design is built with uncompromising attention to quality and reliability. Our safety features aren't extras or add-ons — they come standard, giving peace of mind to both caregivers and users. From sturdy construction and precision engineering to intuitive safety controls, each detail is created to protect, support, and reassure. With Icare, you can trust that safety is at the heart of every bed, because your well-being should never be negotiable.

Additional features are available for specific care needs. Options include a wheelchair transfer cutaway.

02 MATTRESSES & OVERLAYS

Made for Care, Designed for Comfort

Icare mattresses and overlays combine premium comfort with proven pressure injury prevention systems. They are designed to reduce pressure, support mobility, and aid recovery—never as an afterthought. With a high-end, home-style appearance, every Icare mattress delivers clinical performance for care homes, rehab, long-term care, and private homes, while preserving dignity and comfort.

Comfort That Fits Every Bed.

Icare mattresses are designed to suit a wide range of user needs and room configurations. This guide outlines compatible sizes for each model, from compact Twin XL options through to Queen. Whether selecting a mattress with targeted pressure relief, anti-shear protection, or enhanced comfort features, Icare offers flexibility across sizes, including Twin XL, Full XL, and Queen. Use this chart to match mattresses with bed frames for a tailored care solution.

KEY TECHNOLOGIES

Proprietary Sleep Technologies

At Icare, every mattress integrates advanced features that support comfort, mobility, and well-being. Protective and pressure-relieving technologies are built in, not added on, giving confidence to both users and caregivers. From pressure care surfaces and anti-shear materials to responsive support that aids transfers and movement, each element is engineered to enhance safety, independence, and restorative sleep.

KEY

TECHNOLOGIES

PRESSURE CARE

ACTIVEX™

Balanced pressure relief

- **Comfortable Design:** Open-cell structure promotes airflow and temperature regulation for all-night comfort.
- **Targeted Pressure Relief:** Softens around inflamed bony prominences to help prevent pressure ulcers.
- **Balanced Immersion & Envelopment:** Optimized to support spinal alignment while aiding mobility and transfers.

ACTIVEFLOAT™

Support without lockout

- **Dedicated Anti-Shear:** Minimizes shear forces, even under maximum compression.
- **Consistent Performance:** Unlike traditional foams, it stays pliant and won't lock out.
- **Adaptive Comfort:** Enhances comfort and support across different bed and mattress setups, including adjustable beds.

XP SUPPORT™

Working beneath, protecting above

- **Stable Base Support:** Prevents bottoming out of the mattress, ensuring consistent support even on adjustable beds.
- **Edge & Side Protection:** Firmer edges reduce accidental roll-out and assist with safe transfers.
- **Responsive & Springy:** Contours easily to profiling beds and heavier users, reducing effort for turning and transfers.

MICRO-CLIMATE MANAGEMENT

Cool. Dry. Protected.

- **Bluetec™ Cover (Top/Next-to-Skin):** Regulates surface micro-climate, keeping skin cooler to help prevent pressure injuries.

- **Vant 3D Mesh (Sides):** Airflow reduces heat and moisture, helping prevent mold, mildew, and infection.
- **Enhanced Comfort & Safety:** Together, these technologies create a cooler, drier, and safer sleep environment.

CONTOUR LATCH SURFACE LOCKING

Stability You Can Trust

- **Secure:** Prevents mattress drift or slippage when users get in or out of bed, keeping them safe during transfers and movement.
- **Convenient:** Eliminates the need for retainer bars, allowing caregivers to tuck sheets easily around the mattress.
- **Reliable:** Tool-free hook-and-loop fastener is simple to use and built to perform consistently over time.

03 BED ACCESSORIES

Smart design, flexible care.

Icare bed accessories combine thoughtful design with practical functionality to enhance comfort, safety, and independence. From over bed tables and rails to storage and protective solutions, each piece integrates seamlessly with Icare beds. Durable materials, easy attachment systems, and adaptable configurations make everyday care simple, flexible, and stylish.

Start with a sturdy bed rail for in-bed mobility and access.

RAIL

Add soft padded covers to protect against hard impacts and prevent limbs slipping between rails.

PADDED COVER

Layer slip-on fabric covers over the padded rails for a stylish, coordinated finish.

SLIP COVER

RAILS & COVERS

Icare rails offer secure safety and support, with optional wipeable padded covers for comfort. Slip-on fabric covers layer over the padding, perfectly Color-matched to your bed for a coordinated, stylish finish.

Mount anywhere along the bed.

Removable padded covers available.

Durable steel with stylish charcoal finish.

06 CUSHIONS

Rest, Recover, Relieve

The Icare Cushion Range provides targeted support, promotes posture, and relieves pressure for everyday life, rest, and recovery. Lightweight, durable, and easy to care for, our cushions help users stay comfortable, aligned, and supported wherever they are.

REFORM

Ergonomically designed with high-density materials and unique molded shapes, Reform Cushions provide lasting comfort, support, and pressure relief.

Ergonomic Comfort for Every Body.

Reform Cushions are designed to deliver superior comfort, pressure relief, and postural support. Featuring ergonomic shapes, high-density materials, and unique molded designs, they reduce pressure points, improve alignment, and enhance overall well-being. Suitable for a wide range of seating and lying positions, each cushion provides stability and lasting support.

High density ActiveX with charcoal fusion.

Advanced multi-region support.

Zip-off washable breathable cover.

Seat Support

Reform seat cushions use high-density, charcoal-infused ActiveX™ for comfort, pressure relief, and anti-vibration. The molded design provides ischial support, coccyx relief, and a pommel for leg positioning and anti-slippage, with an anti-slip base for stability.

Model Code: ICR1

P
PC
PM

Full Back Support

Reform Full Back Support relieves pressure and promotes posture with its contoured shape. Extended upper arms support the scapula, while a dual curve aids the lower back. A central gap improves airflow, and an elastic strap secures it to any chair.

Model Code: ICR2

P
PC
PM

Low Back Support

Reform Low Back Support relieves pressure and improves posture with its contoured shape. A knuckle-bone dual curve and wide base provide targeted lumbar support, while an elastic strap secures it to any chair.

Model Code: ICR3

P
PC
PM

Knee Support

Reform Knee Support elevates the knees or heels to improve circulation, reduce swelling, and relieve pressure. Its molded design maximizes comfort, easing lower back pain when placed under the knees or offloading heel pressure when used under the ankles.

Model Code: ICR4

P
PC
PM

Lumbar Support

Reform Lumbar Support provides targeted lower back support in supine or Fowler's positions, relieving pain and aiding lateral positioning. Its contoured design cradles the lumbar area for comfort and stability, with raised sides to prevent rolling.

Model Code: ICR5

P
PC
PM

Neck Support

Reform Neck Support features a contoured, anti-vibration design with lateral support to stabilize the neck, providing comfort for seated users such as drivers or office workers.

Model Code: ICR6

PC
PM

SUPPORTA

Cut from high-density foam, Supporta cushions provide versatile, economical comfort and support. Their range of sizes and shapes makes them suitable for seating, bed positioning, and a variety of clinical applications.

Practical Support Made Simple.

Supporta Cushions offer versatile comfort, positioning, and pressure relief across a wide range of seating and lying needs. Made from high-density cut foam in an extensive choice of sizes and shapes, they provide stable, economical support for everyday care and clinical use.

For everyone from office to wheelchair.

Pressure care and Support.

Zip-off washable breathable cover.

Back Cushion

Our Back Cushion supports the spine, improves posture, and relieves stiffness or pain. Contoured with pressure-relieving material, it has an elastic strap with clip and a removable, washable cover. Suitable for home, office, or travel.

Dimensions:

A simple key to product function and purpose.

Every product in the Icare range is designed with a specific therapeutic purpose in mind. To make it easy to understand what each item does, we've created a simple set of initials that represent its key functions.

These symbols appear beside each product throughout the Catalog, helping you quickly identify how a product supports posture, pressure care, comfort, mobility, and overall wellbeing.

Whether you're an occupational therapist, dealer, or end user, this key provides a clear snapshot of each product's intended clinical and functional benefits — allowing you to match the right solution to every individual's needs.

Mobility & Independence

Positioning

Pressure Care

Pain Management

Thermoregulation

Caregiver Access

Our goal is simple: Improve your daily life even just 1% at a time by helping you feel less pain and more ease.

MI Mobility & Independence

Helping users stay active and independent is key for movement, transfers, and repositioning.

How to find

Look for the MI Color code to identify Mobility & Independence products.

P Positioning

Supporting correct posture and alignment improves comfort, function, and overall wellbeing.

How to find

Look for the P Color code to identify Positioning products.

PC Pressure Care

Reducing pressure on vulnerable areas helps prevent or manage pressure injuries and enhances comfort.

How to find

Look for the PC Color code to identify Pressure Care products.

PM Pain Management

Properly managing pain and discomfort supports physical ease and helps maintain daily function.

How to find

Look for the PM Color code to identify Pain Management products.

T Thermoregulation

Maintaining a comfortable body temperature and managing moisture promotes better rest and skin health.

How to find

Look for the T Color code to identify Thermoregulation products.

CA Caregiver Access

Making care tasks easier and safer allows caregivers to provide close, efficient, and ergonomic support.

How to find

Look for the CA Color code to identify Caregiver Access products.

*If you'd like additional support, our team of experts is always available to help you choose the most suitable products.

Professional Support Made Easy

Icare Medical Group provides a range of resources to support dealers and allied health professionals, including OTs, physiotherapists, and other assistive technology specifiers. From product samples, brochures, and videos to demonstration kits and training workshops, we make it easy to explore and understand our products. We also offer one-on-one or online training, spare parts, prompt service, and funding guidance to support patient care.

Dealer Information

Icare Medical Group has a range of dealer resources available from images and point of sale. We can provide; Mattress sample cubes, brochures, in store banners and posters, videos and images, user manuals and warranty cards, wall graphics, display mats and covers, product and fabric samples, stands and shelving.

To reorder marketing material please ask for an order form.

Training Programs

Educational Workshops

We now hold regular educational workshops for therapists and service providers in locations around Australia, New Zealand and North America. We can provide training with our product specialists on everything from patient transfers to the psychology of care in the home.

Product Training

Icare can provide one on one training at your showroom or facility either in person, or remotely online.

We can supply training videos and manuals, on request.

Therapy Kits

We have demonstration kits and folios available to assist Occupational Therapist prescribe equipment. Easy information packs to take into homes when accessing clients.

Spare Parts

We carry spare parts for all our products should you need replacements. If you are a service technician, and unsure what parts you may need, please contact us for a full parts list.

Service

In the unlikely event of a product fault or malfunction, we pride ourselves on prompt service. If you have a product fault, or questions – please contact your dealer straight away. The dealer is responsible for servicing the beds and repairs under warranty. Patient care and comfort is very important, and that is why we do our part with quick dispatch and repairs when needed.

Funding Solutions

Icare products are available through a variety of national government funding programs. For more information on what funding options are available in your region, please contact us for your nearest dealer. Or contact your local store to discuss your requirements.

PARTNER BED ASSESSMENT SCRIPT FORM

IMPORTANT!

- Please ensure the client's bedroom layout is considered when confirming the sleeping side of the bed users (e.g. access to bathroom, carer access etc.).
- Any two Icare bed models can be used in a partner set-up.
- The client must sign the form to confirm they understand and confirm the bed layout before manufacturing process can begin.
- Please complete all information on this form before submission.
- Note: When the partner set-up (two beds) are in place, there is NO gap between the mattresses.
